

Companions in Action Partnership Agreement

In the spirit of St Ignatius and his Companions we, the undersigned, undertake this Companions in Action partnership as a means of better understanding other cultures and actively seeking to create a more just world, where no-one is left out and each person's dignity is upheld. We seek to do this through communication, joint educational, cultural and liturgical initiatives, and through service. In doing this we strive to become men and women of conscience, compassion, competence and commitment. We take Ignatius and his Companions as our model as a way of becoming men and women for and with others.
