

Companions in Action

Relaunch Support Materials

Dear Companions,

December 3rd sees the relaunch of the Companions Programme as Companions in Action. This provides an exciting new opportunity for the Jesuit schools in Britain to renew links with already existing partner schools and to develop new collaboration with Jesuit schools in other regions. Jesuit Missions is uniquely placed in this global network to liaise with Jesuit works around the world to establish partnerships and to assist in keeping them vibrant.

Jesuit Missions will be providing support and resources for this enterprise. The materials that you will find in this pack and those available on our website are intended to provide you with starting points. We have attempted to create resources which are flexible so that they may be used in their entirety or so that educators can use the elements that suit their setting and needs. The new resources are being developed on an ongoing basis with the guidance of our Education Advisory Group. If you have questions or suggestions, or if you would simply like to have a conversation about your school and Companions in Action please contact our Outreach Coordinator, Lynn McWilliams at lynn@jesuitmissions.org.uk We would also encourage you to share information with us about Companions in Action in your school. If you would like to share news please contact our Communications Officer, Stephanie Beech at stephanie@jesuitmissions.org.uk

In order to protect our common home Jesuit Missions is reducing our use of paper and will increasingly be providing resources in electronic format. Last year you will have received a flash drive from us for the storage of resources. If you would like a replacement, could you please contact us. All resources are also available on our website.

This folder includes:

1. Partnership Agreement

- CIA Aims and Way of Proceeding
- CIA Partnership Guidelines
- CIA Partnership Agreement
- Jesuit Missions Support
